The attached audit strategy is to be used to document the following:

- Auditor's understanding of certain preliminary information regarding the entity and its environment for planning the audit.
- Auditor's fraud risk assessment including identification of fraud risk factors.
- Identification of material account balances and classes of transactions.
- Determination of the risk of material misstatement at the financial statement and relevant assertion levels.
- Auditor's response to the risks identified.
- Identification of the federal programs.
- Determination of major federal programs and the applicable common requirements.
- Applicability of account balances and classes of transactions to federal programs.

Matters that should be discussed include:

- a. How and where the financial statements might be materially misstated due to fraud or error.
- b. How management could perpetrate and conceal fraudulent financial reporting.
- c. How the perpetrators could misappropriate government assets.
- d. Known external and internal factors affecting the government that might (1) create incentives/pressures to commit fraud, (2) provide the opportunity for fraud to take place, and (3) reveal attitudes or rationalization about why fraud is acceptable behavior.
- e. The nature and risk of management override of controls.
- How best to respond to these fraud and other risks through the design of audit procedures.
- g. The importance of maintaining an appropriate attitude of professional skepticism throughout the audit when considering the risk of material misstatement due to fraud.

II. INQUIRIES ABOUT THE RISKS OF FRAUD

Instructions: Auditors are required to make inquiries of management and others about the risks of fraud. Inquiries should be made each year in the planning stage of the audit. This form can be used to document the auditor's inquiries of management and other employees. Conducting one-on-one interviews with members of management and other employees is the most appropriate way of accomplishing the objectives of the inquiry process. Management interviewed should include, at a minimum, all those who sign the management representation letter.

If the audit is a Single Audit, completion of this procedure should include consideration of both the audit of the financial statements and the federal awards. Alternatively, the auditor may wish to

IV. RESPONSE TO RISKS

The way the auditor responds to the risks identified during the risk assessment process depends on the nature and significance of the risks identified and on the government's programs and controls that address such risks. The auditor should take into account the various risk assessment procedures performed including preliminary analytical procedures, brainstorming session, information obtained about the entity and its environment including internal controls, fraud risk considerations and any other sources providing information about relevant risks. Auditors respond to the results of the risk assessment in three ways: (1) an overall response as to how the audit is conducted; (2) specific responses involving modification of the nature, timing, and extent of procedures to be performed; and (3) responses to further address the fraud risk of management override of controls.

1.	Overall response to financial statement risks – Describe overall risks at the financial statement level that may affect many assertions and the planned response to identified risks. Examples of overall risks include weaknesses in the control environment, changes in management, motivation by management to fraudulently misstate the financial statements, etc. Appropriate responses may include: (1) assignment of personnel and supervision, (2) scrutiny of management's selection and application of significant accounting principles, and (3) including an element of unpredictability in audit procedures and tests.
_ 2.	Specific responses to risks – If any risks are considered significant, the risk and the auditor's response to the risk should be included in the risk assessment summary form. For less significant risks, describe your specific responses, if any, to identified risks, including modification of the nature, timing, and extent of audit procedures.
_	

3. Response to address management override of controls – Because management override of controls can occur in unpredictable ways, the risk of management override of controls is always an identified fraud risk and the auditor is required to perform certain specified procedures to respond to such risk. These procedures relate to (1) examining journal entries and other adjustments, (2) reviewing accounting estimates for biases, and (3) evaluating the business rationale for significant unusual transactions.

		RISK ASSESSMENT SUMMARY

Planning Approach:

We have documented the material account balances and classes of transactions and identified significant risks, if any, at the relevant assertion level. We have determined and documented the risk of material misstatement, specific responses to the risks identified, an overall audit approach and have modified the audit program procedures accordingly.

Completion - Overall Audit Strategy Conclusion:

We have reviewed the audit procedures performed for each account balance and class of transaction and have determined these procedures agree with and satisfy the planned audit approach.

AUDIT STRATEGY SINGLE AUDIT

1) Determine Type A vs. Type B programs using the Program Identification form.

- 2) Determine the risk classification of Type A and primary Type B programs using the Risk Assessment form. The auditor is not required to perform a risk assessment of relatively small Type B programs.
- 3) Identify major programs and determine if the percentage of coverage rule has been met using the bottom of the Determination of Major Programs form.

Major programs must account for at least 50% of total expenditures of federal awards unless the entity is low-risk, in which case, only 25% needs to be met.* The entity is considered low risk if, for each of the prior two years, <u>all</u> of the following conditions have been met:

- A Single Audit is performed on an annual basis.
- Unqualified opinions on the financial statements and Schedule of Expenditures of Federal Awards were issued. **
- No material weaknesses in internal control under the requirements of <u>Government Auditing Standards</u> (relating to the financial statements) were noted. **
- No internal control deficiencies identified as material weaknesses were noted for all Type A programs.
- No material non-compliance was noted for all Type A programs.
- There were no known or likely questioned costs exceeding 5% of the program's expenditures for all Type A programs.

^{*} The auditee may have one or more non low-risk Type A *programs* and still qualify as a low-risk *entity*, as long as all Type A programs meet the criteria listed. However, <u>all</u> non low-risk Type A programs must be audited as major programs even if the 25% rule of coverage is met by only a portion of the non low-risk Type A programs.

^{**} However, a waiver that allows the entity to be identified as low-risk may be provided by the cognizant or oversight agency if they judge that an opinion qualification or any identified material weaknesses does not affect the management of federal awards.

SINGLE AUDIT AUDIT STRATEGY DETERMINATION OF MAJOR PROGRAMS

In order to determine major programs, complete the following steps:

- Enter Type A programs and their risk analysis from the Risk Evaluation form. For non low-risk programs only, enter their percentage of total federal expenditures (from the Program Identification form) in the far right column. If there are no low-risk Type A programs, then determine if total percentage of non low-risk Type A programs exceeds the percent of coverage rule. If it exceeds the minimum percentage required, the determination of major programs is complete.
- Enter the primary Type B programs and their risk analysis from the Risk Evaluation form. Select at least half of the high risk Type B programs (may limit the number selected to the number of low-risk Type A programs.) For each high-risk Type B program selected, enter its percentage of total federal expenditures (from the Program Identification form) in the far right column. When identifying which high-risk Type B programs to test as major, the auditor is encouraged to use an approach which provides an opportunity for different high-risk Type B programs to be audited as major over a period of time.
- Determine if the total percentages from these two steps exceed the percent of coverage rule. If it exceeds the minimum percentage required, then the determination of major programs is complete. If the minimum percentage is not met, include additional programs as necessary to meet the percentage of coverage rule.
- For each <u>major</u> program, document the inherent risk from the previous page. If a risk assessment was not required, determine the inherent risk based on the criteria from the previous page.

Audit standards require we comm	unicate the following informa	tion to you as
(title) of	(entity):	

AUDITOR'S RESPONSIBILITIES:

1. Obtain an understanding, test and report on internal controls and compliance with laws and regulations:

Tests of internal control over financial reporting and compliance with laws, regulations, and provisions of contracts or grant agreements in a financial statement audit contribute to the evidence supporting the auditors' opinion on the financial statements or other conclusions regarding financial data. However, such tests generally are not sufficient in scope to opine on internal control over financial reporting or compliance with laws, regulations, and provisions of contracts or grant agreements.

- 2. Discover and report significant contractual compliance violations and questioned costs.
- 3. Obtain reasonable, not absolute, assurance that the financial statements are free of material misstatement, whether caused by error or fraud. Accordingly, a material misstatement may remain undetected. Also, an audit is not designed to detect error or fraud that is immaterial to the financial statements. Express opinions on the financial statements based on our audit.
- 4. Communicate certain matters to audit committee, entity contracting the audit or other party responsible for oversight.
- 5. Communicate with management if auditor becomes aware that the entity is subject to an audit requirement(s) that is not encompassed in the terms of the engagement.

ENTITY'S RESPONSIBILITIES:

- 1. Accept responsibility for financial statement assertions and sign a management representation letter accepting these responsibilities. The financial statement assertions are: existence or occurrence; completeness; rights and obligations; valuation and allocation; presentation and disclosure.
- 2. Maintain a system of internal control.
 - Internal control is defined as a process effected by an entity's governing board, management and other personnel designed to provide reasonable assurance regarding achievement of objectives in the following categories: (a) reliability of financial reporting, (b) effectiveness and efficiency of operations, and (c) compliance with applicable laws and regulations.
- 3. Identify and ensure the entity complies with all laws, rules and regulations that may have a direct and material effect on the financial statement amounts and for disclosing all known instances of non-compliance.

(D)	If the AEA has an OPEB (explicit, implicit or both), determine and document whether the entity mus	١t
	obtain an actuarial valuation and how often using the following guidance from GASB Statement 45:	

•	Actuarial	valuation	requirement	$\mathbf{c} = \mathbf{c}$	heck	the	option	that app	lies:
---	-----------	-----------	-------------	---------------------------	------	-----	--------	----------	-------

 For plans with total membership of 200 or more

 For plans with total membership of less than 200
 Opinion must be acquired at least triennially (every three years)
 For plans with total membership of less than 100 AEA allowed to use an Alternative Measurement Method to determine required information.
 Discuss feasibility of the Alternative Measurement Method

• **NOTE:** New valuation should be performed if, since the previous valuation, significant changes have occurred that would affect the results of the valuation (changes in benefit provisions, size or composition of population covered, medical trend rates).

Check here if AEA plans to pursue using this method

- Determining plan membership sum of the following:
 - 1. Employees in active service (those that will draw a benefit from the plan)
 - 2. Terminated employees who have accumulated benefits but are not yet receiving them
 - 3. Retired employees and beneficiaries of deceased retirees currently receiving benefits
- (E) Discuss when the AEA should begin the process of obtaining an actuarial valuation:
 - For AEAs required to implement in fiscal 2009 start early FY09
 - Actuary opinion must be completed (dated) no more than 24 months prior to the start of the period covered by the valuation (not even one day sooner).
 - Where to locate an actuary:

June 30, 2008 TRIAL BALANCE

	PROCEDURE	OBJ.	DONE BY	W/P REF	N/A	REMARKS
Audi	t Objective and related assertion:					
A.	Provide a document which links the report or financial statements to supporting workpapers. (12)					
Audi	t Procedures:					
A.	Obtain or prepare working trial balances by fund type, fund, function and objective class as needed. If prepared by auditor, determine that independence will not be impaired.	A				
	1. A separate trial balance should be prepared for each fund.					
	2. Account classifications should be minimized and consistent with the GASB codification and/or the sample report.					
	3. Foot the working trial balances to verify their accuracy, if applicable.					
	4. Document the source of the information for the beginning balance amounts.					
B.	Record, as necessary, accrual activity and adjusting journal entries.	A				
	1. The adjusting journal entries should be consolidated on a separate page, numbered, briefly explained or described and referenced to supporting workpapers.					
	2. Obtain and document Agency approval and concurrence for adjusting journal entries.					
	3. Reconcile reversing journal entries with prior year report.					
C.	Examine adjustments made directly to the financial statements. (AU 316.58 and AU 318.52)					
	1. Scan journal entries and select specific journal entries including material journal entries for testing. Document the items selected.					
	2. Examine the related accounting records and supporting documents or ensure selected items have been examined as part of testing performed in individual transaction cycle audit programs.					
	3. Identify and consider the appropriateness of significant adjustments.					
	4. Make inquiries of employees involved in the financial reporting process about the possibility of unusual or improper journal entries.					
D.	Record reclassifications as necessary.	A				
	1. The reclassification entries should be consolidated on a separate page, lettered, briefly explained or described and referenced to supporting workpapers if possible.

	PROCEDURE	OBJ.	DONE BY	W/P REF	N/A	REMARKS
	2. Determine amounts due to/from Agency Funds are eliminated and recorded as cash adjustments.					
	3. Inform the Agency of all reclassifications which they should be cognizant of and receive their concurrence.					
E.	Reference the amounts to supporting workpapers. (The adjusted trial balance amounts should be referenced to supporting workpapers.)	A				
F.	Prepare closing entries for each fund.					
G.	Reconcile the Agency's June 30 certified annual report to revenues, expenditures and fund balances per the trial balances.					
H.	For each proprietary fund, prepare a cashflow worksheet. The worksheet should reconcile the changes in assets, liabilities and fund equity and the operating statement activity to the cash flows for each fund. Reference the amounts on the cashflow worksheets to supporting workpapers.					
I.	Record full accrual entries for entity wide statements, as follows:					
	1. The entries should be briefly explained or described and referenced to supporting workpapers. Information should be sufficient to prepare reconciliation between fund financials and entity-wide statements.					
	2. Prepare journal entries necessary to restate the beginning of the year to full accrual.					
	3. Reconcile reversing journal entries with prior year report.					
	4. Review receipt classifications for proper reporting on entitywide statement.					
	5. Allocate Internal Service Funds net profit/loss to the functions that benefited from the services provided.					
	6. Eliminate interfund governmental activity including interfund receivables and payables and transfers.					
	7. Obtain Agency concurrence for full accrual journal entries.					
J.	Determine if the risk of material misstatement due to fraud or error has changed based on the results of substantive tests performed. If so, perform appropriate procedures.

June 30, 2008			SIGNIFICANT FINDINGS FROM THE AUDIT
IN ATTENDANCE:			
<u>AEA</u>			Auditor
Name	Title	Name	Title

The auditor should communicate significant findings from the audit with those charged with governance including the following matters (AU 380.34 through AU 380.44)

(A) Accounting Policies

ADEA EDUCATION ACENOX

Significant accounting policies used by the AEA are described in Note 1 to the financial statements. Except as noted below, no new accounting policies were adopted and the application of existing policies was not changed during the fiscal year. Except as noted below, we noted no transactions entered into by the AEA that were both significant and unusual, and of which, under professional standards, we were required to inform you, or transactions for which there is a lack of authoritative guidance or consensus.

Exceptions:

(B) Accounting Estimates

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. We evaluated key factors and assumptions used in the significant estimates used by the AEA in determining the reasonableness in relation to the financial statements taken as a whole.

List significant estimates:

(C) <u>Difficulties Encountered in Performing the Audit</u>

Except as noted below, we encountered no significant difficulties in dealing with management in performing and completing our audit.

Exceptions:

June 30, 2008

SIGNIFICANT FINDINGS FROM THE AUDIT

(D) <u>Uncorrected misstatements</u>

We have provided you with a listing of all known and likely uncorrected misstatements identified during the audit which have been included in the management representation letter. In our judgment, none of the uncorrected misstatements, either individually or in the aggregate, indicate matters that could have a significant effect on the AEA's financial reporting process.

(E) <u>Disagreements with Management</u>

Professional standards define a disagreement with management as a matter, whether or not resolved or not resolved to our satisfaction, concerning a financial accounting, reporting or auditing matter that could be significant to the financial statements or the auditor's report. Except as noted below, no such disagreements arose during the course of our audit.

Exceptions:

(F) Material, Corrected Misstatements

Except as noted, all material, corrected misstatements brought to the attention of management as a result of audit procedures were included in the auditor's comments and recommendations.

Exceptions:

(G) Consultation with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If consultation involves application of an accounting principle to the AEA's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine the consultant has all the relevant facts. Except as noted below, there were no such consultations with other accountants.

Exceptions:

(H) Significant Issues

Significant issues arising from the audit that were discussed, or the subject of correspondence, with management.

List any significant issues:

(I) Comments

We have provided you our written comments and recommendations regarding the AEA's financial statements and operations.

<u>ITEMS FOR COMMENT-</u> STATUTORY AND OTHER LEGAL MATTERS

The following guidance should be used by the auditor to evaluate the control deficiencies identified:

That Occurred, or Could	Likelihoo	d of Misstatements		
Have Occurred	More Than Remote	Remote		
Quantitatively or Qualitatively material	Material weakness	Control deficiency but not a significant deficiency or a material weakness		
More than inconsequential but less than material	Significant deficiency but not a material weakness	Control deficiency but not a significant deficiency or a material weakness		
Inconsequential				
(i.e., clearly immaterial)	Control deficiency but not a significant deficiency or a material weakness	Control deficiency but not a significant deficiency or a material weakness		

Definitions:

<u>Control Deficiency</u> – exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis.

<u>Significant Deficiency</u> – a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not to be prevented or detected.

<u>Material Weaknesses</u> – a significant deficiency or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected.

More Than Inconsequential – Describes the magnitude of potential misstatement that could occur as a result of a significant deficiency and serves as a threshold for evaluating whether a control deficiency or combination of control deficiencies is a significant deficiency. A misstatement is inconsequential if a reasonable person would conclude, after considering the possibility of further undetected misstatements, that the misstatement, either individually or when aggregated with other misstatements, would clearly be immaterial to the financial statements. If a reasonable person would not reach such a conclusion regarding a particular misstatement, that misstatement is more than inconsequential.

<u>Likelihood</u> – refers to the probability that a control, or combination of controls, could have failed to prevent or detect a misstatement in the financial statements being audited.

<u>Magnitude</u> – refers to the extent of the misstatement that could have occurred, or that actually occurred, since misstatements include both potential and actual misstatements.
